Welcome . . .

Congratulations! You are registered.

Once you have successfully activated your account and are in the portal, you have several options for viewing your student's information. If you have more than one student, you simply select the student you want to review from the menu. (If you do not see all of your students in the menu, please contact any of the schools your student attends and they will finish linking your accounts.)

Go ahead and have a look around. At this point, your actions will only display information. As the year progresses we will be rolling out additional features.

If you have difficulty finding updated information on your child's progress in any of his/her classes, contact the teacher first to discuss your child's grade.

We hope you find this new resource easy to use and helpful as you support your child's education. Santa Rosa City Schools feels that giving you immediate access to your student's academic progress can benefit your student for a lifetime of learning. We value our partnership in working with you to ensure your child's success in school.

Thank you for your patience as we work out the kinks.
