

## **Fremont Elementary School PARENT AND COMMUNITY OUTREACH MEETING**

Santa Rosa City Schools invite parents, staff, and community members to attend a community outreach meeting on Thursday, March 30. Discussion will center on the development of a new charter school focusing on visual and performing arts for students in kindergarten through eighth grade. We want to open the dialogue with parents and community members about implementing this dynamic change at Fremont School.

In February, the SRCS Board of Education made the decision to convert Fremont Elementary School into an Arts Charter school beginning in the 2007-2008 academic year. The meeting on March 30<sup>th</sup> will be the first step in the planning process for these changes.

At this introductory meeting, you will have a chance to meet the new Principal of Fremont, Ana Guzman. Members of the Board of Education and District level administrators will be on hand to gather thoughts and ideas about the new charter. Please join us in shaping this new vision for an additional educational opportunity within Santa Rosa City Schools.

All members of the community are encouraged to become a part of the conversation. Spanish translation service will be provided.
