Expected year of high school graduation _____

I request a waiver for my son/daughter from the 10-unit World Language requirement for the reason indicated below:

- My son/daughter’s Individual Education Plan (IEP) indicates that the World Language requirement would pose an undue burden based on his/her specific learning disability and the goals stated in the IEP.

I declare that the above information is true and is the basis for this claim of exemption from the World Language requirement for my son/daughter. I understand that not taking a world language in high school will prevent my student from completing minimum entrance requirements for four-year California State colleges and universities, unless the student is fluent in a language other than English and an instructor verifies this for college entrance.
